

SN.	Words	Definition
1	Acoustography	an imaging process that employs a sensor to convert ultrasound into an image in near real-time, analogous to an X-ray
2	Acrography	a method of relief etching on wood, metal, or stone by means of a coating of compressed chalk
3	Angiography	roentgenographic examination of blood vessels after injection of a radiopaque contrast medium; produces an angiogram
4	Arteriography	roentgenographic examination of arteries
5	Autobiography	a biography of yourself
6	Autography	ariting done with one's own hand.
7	Autoradiography	producing a radiograph by means of the radiation emitted from the specimen being photographed
8	Bibliography	a list of writings with time and place of publication (such as the writings of a single author or the works referred to in preparing a document etc.)
9	Biogeography	dealing with the geographical distribution of animals and plants
10	Biography	an account of the series of events making up a person's life
11	Cacography	poor handwriting
12	Calligraphy	beautiful handwriting
13	Cardiography	diagnostic procedure consisting of recording the activity of the heart electronically with a cardiograph (and producing a cardiogram)
14	Cartography	the making of maps and charts
15	Chirography	beautiful handwriting
16	Cholangiography	roentgenographic examination of the bile ducts after a contrast medium has been injected
17	Choreography	a notation used by choreographers
18	Chorography	the systematic description and mapping of particular regions
19	Chromatography	a process used for separating mixtures by virtue of differences in absorbency
20	Cinematography	the act of making a film
21	Cosmography	a representation of the earth or the heavens
22	Cryptography	act of writing in code or cipher
23	Crystallography	the branch of science that studies the formation and structure of crystals
24	Demography	the branch of sociology that studies the characteristics of human populations

Black book of English Vocabulary: List of Graphy

SN.	Words	Definition
25	Encephalography	roentgenography of the brain after spinal fluid has been replaced by a gas (usually oxygen); produces an encephalogram
26	Epigraphy	the study of ancient inscriptions
27	Ethnography	the branch of anthropology that provides scientific description of individual human societies
28	Geography	study of the earth's surface; includes people's responses to topography and climate and soil and vegetation
29	Hagiography	a biography that idealizes or idolizes the person (especially a person who is a saint)
30	Historiography	the writing of history
31	Holography	the branch of optics that deals with the use of coherent light from a laser in order to make a hologram that can then be used to create a three dimensional image
32	Hydrography	the science of the measurement and description and mapping of the surface waters of the earth with special reference to navigation
33	Iconography	the images and symbolic representations that are traditionally associated with a person or a subject
34	Ideography	the use of ideograms in writing
35	Lexicography	the act of writing dictionaries
36	Lithography	the act of making a lithographic print
37	Lymphography	roentgenographic examination of lymph nodes and lymph vessels after injection of a radiopaque contrast medium; produces a lymphangiogram
38	Mammography	a diagnostic procedure to detect breast tumors by the use of X rays
39	Oceanography	the branch of science dealing with physical and biological aspects of the oceans
40	Orography	the science of mountains
41	Orthography	a method of representing the sounds of a language by written or printed symbols
42	Paleogeography	the study of the geography of ancient times or ancient epochs
43	Paleography	the study of ancient forms of writing (and the deciphering of them)
44	Photography	the occupation of taking and printing photographs or making movies
45	Physiography	the study of physical features of the earth's surface
46	Planography	the process of printing from a surface on which the printing areas are not raised but are ink receptive (as opposed to ink repellent)

SN.	Words	Definition
47	Polarography	an electrochemical method of chemical analysis
48	Pornography	creative activity (writing or pictures or films etc.) of no literary or artistic value other than to stimulate sexual desire
49	Radiography	photography that uses other kinds of radiation than visible light
50	Radiotelegraphy	the use of radio to send telegraphic messages (usually by Morse code)
51	Roentgenography	radiography that uses X rays to produce a roentgenogram
52	Seismography	the measurement of tremors and shocks and undulatory movements of earthquakes
53	Serigraphy	the act of making a print by the silkscreen method
54	Sonography	using the reflections of high frequency sound waves to construct an image of a body organ (a sonogram); commonly used to observe fetal growth or study bodily organs
55	Stenography	the act or art of writing in shorthand
56	Stratigraphy	the branch of geology that studies the arrangement and succession of strata
57	Telegraphy	communicating at a distance by electric transmission over wire
58	Telephotography	photography using a telephoto lens
59	Thermography	diagnostic technique using a thermograph to record the heat produced by different parts of the body; used to study blood flow and to detect tumors
60	Tomography	(medicine) obtaining pictures of the interior of the body
61	Topography	the configuration of a surface and the relations among its man made and natural features
62	Typography	the craft of composing type and printing from it
63	Ultrasonography	using the reflections of high frequency sound waves to construct an image of a body organ (a sonogram); commonly used to observe fetal growth or study bodily organs
64	Venography	roentgenographic examination of veins
65	Xerography	forming an image by the action of light on a specially coated charged plate; the latent image is developed with powders that adhere only to electrically charged areas
66	Xeroradiography	radiography using X rays and xerographic (rather than roentgenographic) techniques
